

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	18 th October 2023
Team ID	593189
Project Name	Crime Vision
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Crime Vision (Team ID: 593189)

Project Description:

This project uses a special kind of computer technology called deep learning to help identify different types of crimes from pictures and videos. Deep learning is like teaching a computer to recognize patterns in images. We can use it to look at pictures or videos of crime scenes and figure out what kind of crime happened. This is really helpful for police and investigators. It helps them investigate crime scenes better and analyze evidence. It can also be used to watch a lot of video footage and spot any unusual or suspicious activities. This way, they can plan ways to stop crimes from happening in the future.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

A

Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B

Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

C

Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a happy and productive session.

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

PROBLEM

"How might we develop an automated Crime Identification System, harnessing deep learning techniques, to swiftly and accurately analyze visual data from crime scenes? This system should adeptly classify different types of crimes based on visual evidence, mitigating the shortcomings of manual methods and empowering law enforcement in their investigative and preventive endeavors. By addressing these challenges, we aim to contribute to the broader goal of rectifying bias, discrimination, and excessive use of force in law enforcement practices, ultimately enhancing justice provision and maintaining law and order in the country."

Step-2: Brainstorm, Idea Listing and Grouping

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

🕒 10 minutes

TIP

You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

🕒 20 minutes

TIP

Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

Step-3: Idea Prioritization

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

🕒 20 minutes

TIP

Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding the **H** key on the keyboard.
